

## Czech-German Cross-Border Situational Awareness for Critical Infrastructures

### Meeting memo

**Date:** 12. 12. 2019

**Venue:** Prague, University of Economics

### Participants:

OTH Regensburg

Prof. Markus Bresinsky  
Josef Lojda  
Johanna Schroeder  
Sophia Willner

VŠP Jihlava

Mgr. Antonin Příbyl  
doc. Jan Voráček  
Vojtěch Voráček

### Program:

- 1) Introduction of partner institutions and project teams.
- 2) Establishment of common understanding of project mission.
- 3) Discussion:
  - a) Presentation of current activities of the both teams,
  - b) Review of project goals for year 2019,
  - c) Outline of tasks and outputs for year 2020.

### Conclusions:

- 1) The project has started successfully and cooperating teams consistently follow common aims and objectives. Team members are mutually informed about ongoing activities and share key documents and data within recently developed project infrastructure and processes.
- 2) The main task for Phase 1, *"Analysis of information resources and design of a conceptual model of the security of cross-border critical infrastructures"*, will be initially performed on the national bases.
- 3) There is a need for preliminary local workshops with stakeholders in 2020. The both teams will investigate and communicate their possibilities concerning such extra events.
- 4) The both teams will work on the goals planned for year 2020, including:
  - a) Research report, summarizing specific security features of cross-border critical infrastructures,
  - b) Research paper, presenting these findings for professional community,
  - c) Development of stakeholder network,
  - d) Preparation of project meeting in Germany.
